

Cargo

DB Cargo Full Load Solutions

Partner for your FTL transports by road and rail

Full Load Solutions

Full Load Solutions for Europe and the Eurasian corridor delivered out of one hand

- DB Cargo Full Load Solutions offers suitable logistics solutions for your **FTL transports by rail, road, intermodal and shortsea** - supplemented with **value-added services**.
- We specialise in **door-to-door transport** in Europe and on the Eurasian corridor.
- **Proximity** to our customers and **flexibility** through **local service**, combined with short decision paths and uniform processes are what sets us apart
- We intelligently combine trains and trucks. Our mission: **As much rail as possible, as much road as necessary**

The Strengths of DB Cargo Full Load Solutions

High level of expertise

We are experts in door-to-door transportation on all modes of transport for your FTL - on site, in your language

Sustainable logistics

Combination of the climate-friendly rail over long distances with the flexibility of the truck

Reliability

Part of a leading global logistics group - access to Europe's largest network

Value Added Services

Our logistics solutions are supplemented with value-added services such as warehousing

DB Cargo Full Load Solutions offers the experience in cross-border transport resources that are essential for your full load transports.
