

# Cargo

**Subject: Adjustment of Standard Freight Rates, Empty Running Charges, Additional Services, Wagon Demurrage Charges and General Terms and Conditions**

## Annex of the Adjustments 2025

Ladies and gentlemen, dear DB Cargo customers,

Below you will find an overview of the adjustments to our Standard Freight Rates, Empty Running Charges, Additional Services and Wagon Demurrage Charges, valid from 01.01.2025.

Position	Adjustment
<b>Standard Freight Rates</b> (Standard Rates and other Provisions, chapter 2)	+7%
<b>Empty Running Charges</b> (Standard Rates and other Provisions, chapter 3)	+7%
<b>Additional Services</b> (Service Catalogue)	+7%
<b>Wagon Demurrage Charges</b> (section 3.7)	+2%

**Additional information on Standard Freight Rates:** Please note that individually contractually agreed freight rates between you and DB Cargo AG are not part of the Standard Freight Rates and are therefore not affected by these adjustments.

We would also like to draw your attention to the **amendment of DB Cargo AG's "General Terms and Conditions" (GTC)**. We request early notification of plant holidays/holidays (chapter 1, section 2.8) so that train paths that are not required can be cancelled with DB InfraGo in good time.
